1 - Requires 3rd party service provider

2 - Requires optional module

Why Reflection™

Reflection™ Embedded is proven POS software with more than 20,000 systems installed in 35 countries around the world.

Reflection is equipped with the most sophisticated network on the market. System information is replicated on every terminal across the high-speed TCP/IP network.

Built on solid-state technology and an embedded operating system, Reflection is not succeptable to viruses or spyware so you can rest assured that Reflection will be ready to perform when you need it.

Why take a chance with anything else!

POS Marketing

Sundrop Mobile's loyalTXT® is a loyalty program that uses customer mobile phones and email for data collection. When loyalTXT is integrated with Reflection, customer information is captured quickly and gives merchants a decisive marketing advantage over the competition.

Certifications

Reflection has been validated by an independant Qualified Security Accessor to meet or exceed PCI requirements for card payment processing

Reflection has been validated by National Weights and Measures to meet requirements for integrated electronic scales

NO Windows   NO HDD   NO Spyware   NO Headaches
